Pan ↓

77 MARROW - Let me get this straight... you've been in a coma for 20 years...

Slow Pan → Xavier works on legs

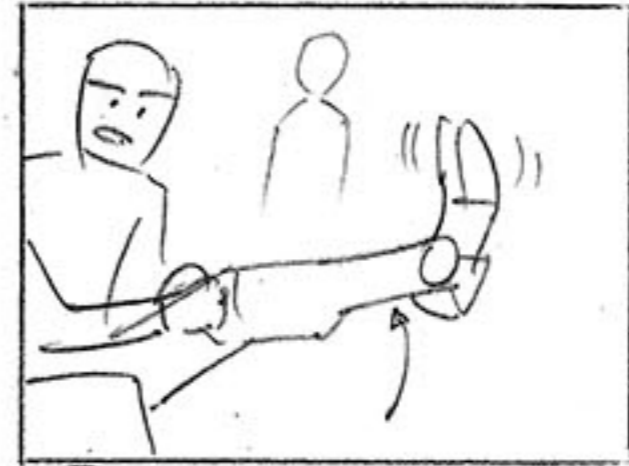

78 But now you're awake and are using your brain powers to contact the X-men in the past (vo) - to try and stop this future from happening.

- No way you're Charlie X.

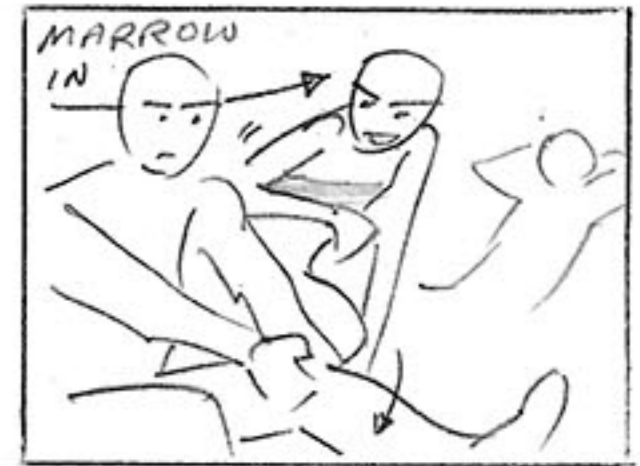

81 X: I prefer that my students address me as -

79 I wouldn't have summed it up quite like that, but yes.

Professor.

80 You're crazy.

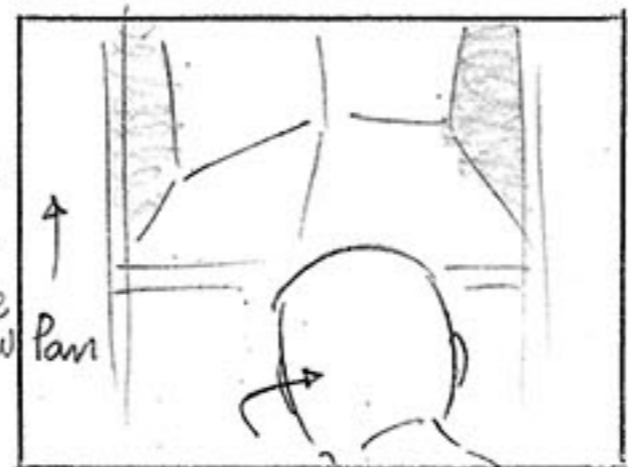

(All react - change posture)

82 X: It may sound ridiculous, but Sarah is right.

- and that's why I must

get inside the tower.

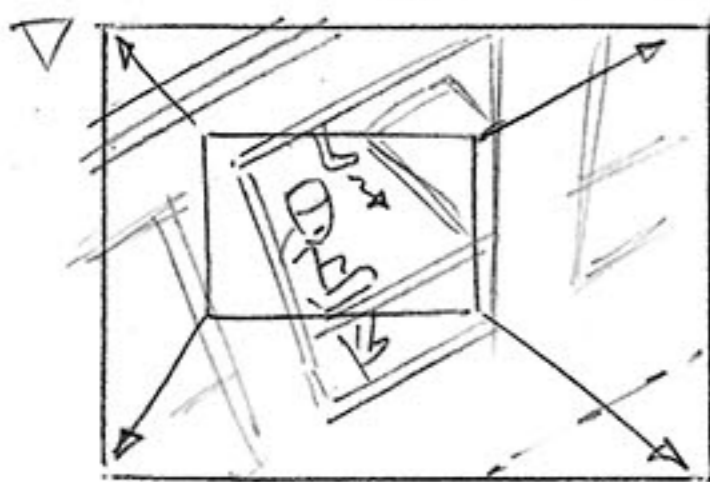

83 D-Lough
84 K- Marrow has you pegged

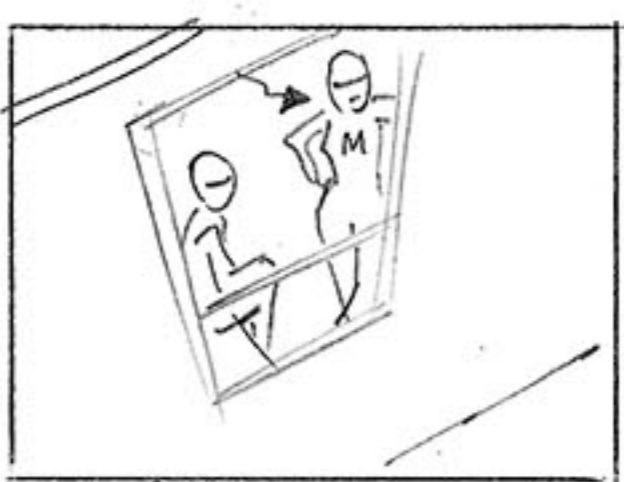

- old man. You are crazy.

Pan adjust up

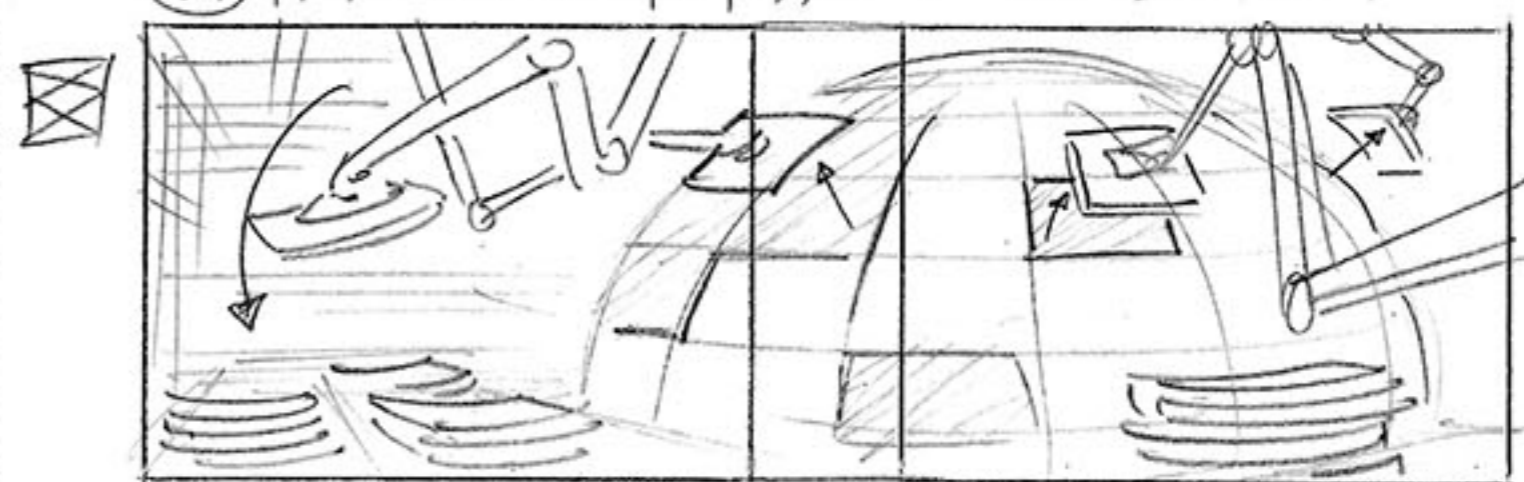

85 X: Perhaps. But the Sentinels took something from me.

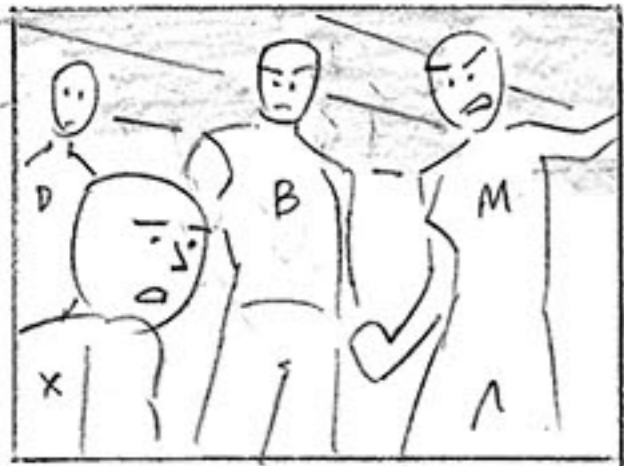

And if I don't get it back, nothing you do will matter.

86 It's called Cerebro...

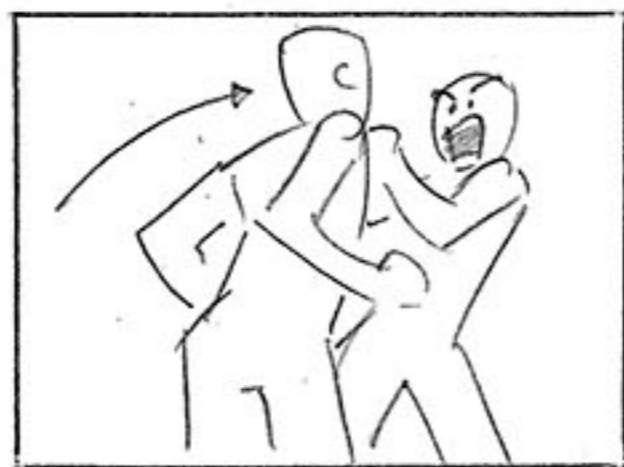

87 X: It's a tracking system I created. I used it to find mutants in need, to help them. But if the Sentinels could somehow access it...

88 X: there would be no running, no hiding, no hope.

89 M: This is YOUR fault!

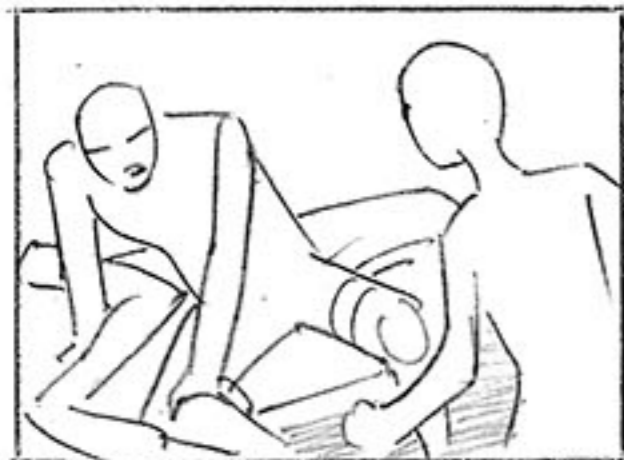

Things were bad enough for us, and you bring

-a mutant tracker into it? why didn't you just

-SMASH that thing?

90 X-It's my only link to the past.

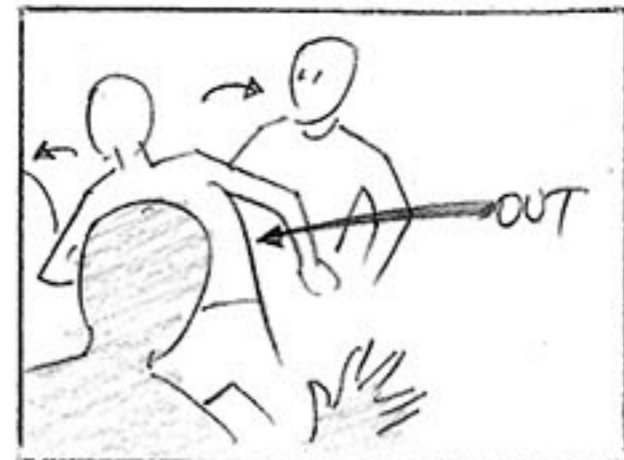

91 M- Forget the past!

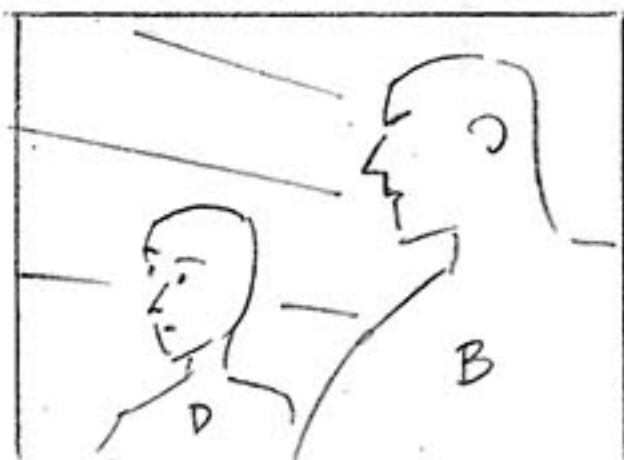

You're here. Now. And you've made

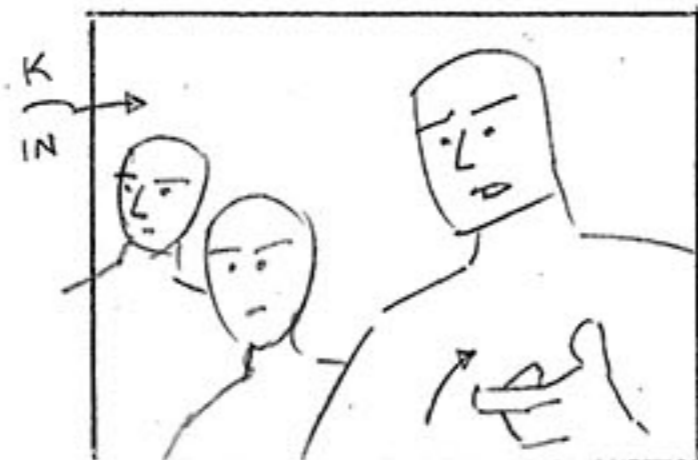

-everything worse!

92 X: Sarah, wait!

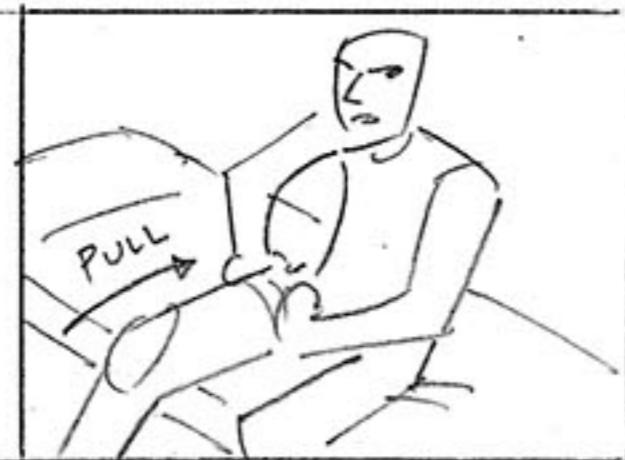

93 B: Don't worry about her.

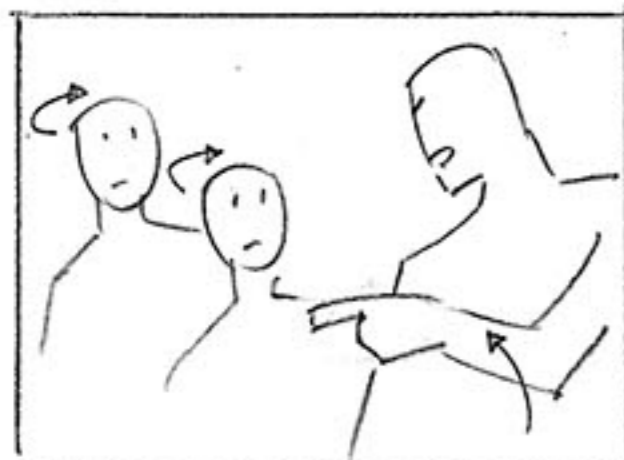

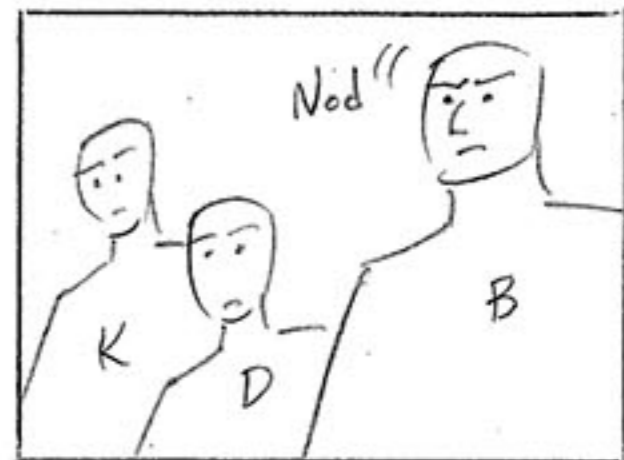

You know kids, here and now is all that matters.

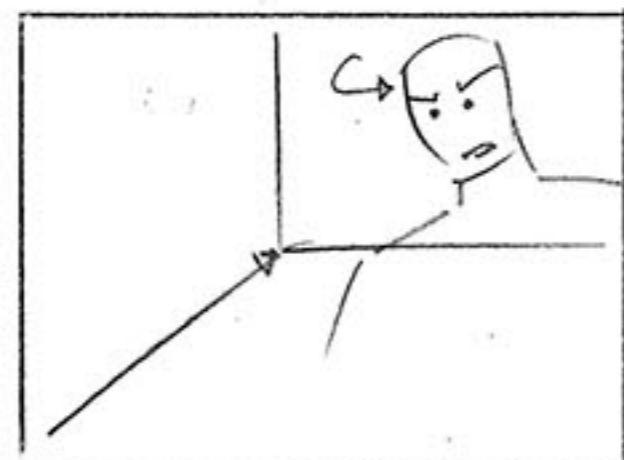

94 X: We can win this, and getting Cerebro back

-is the first step.

95 B: Domino, Kamal, proceed as planned.

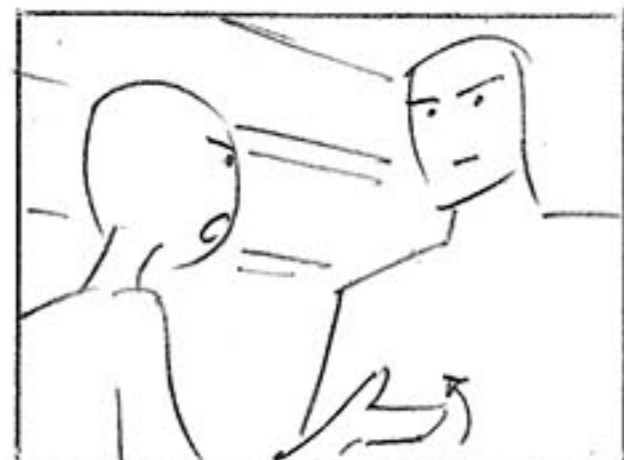

Get everyone out. I'm going with the professor.

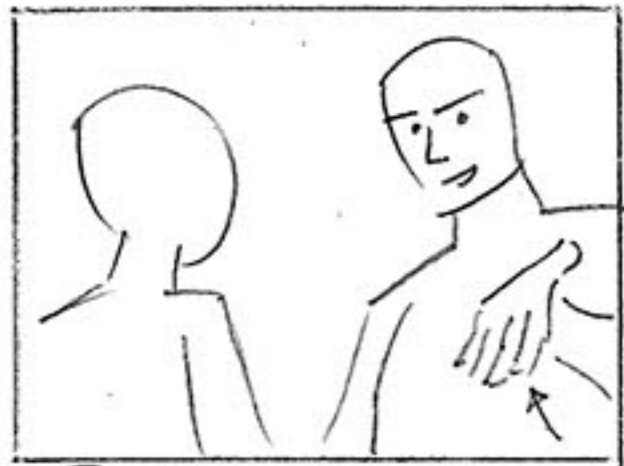

99 X: Thank you.

96 D: Don't let this crazy man get in your head, Bishop.

-you're our leader.

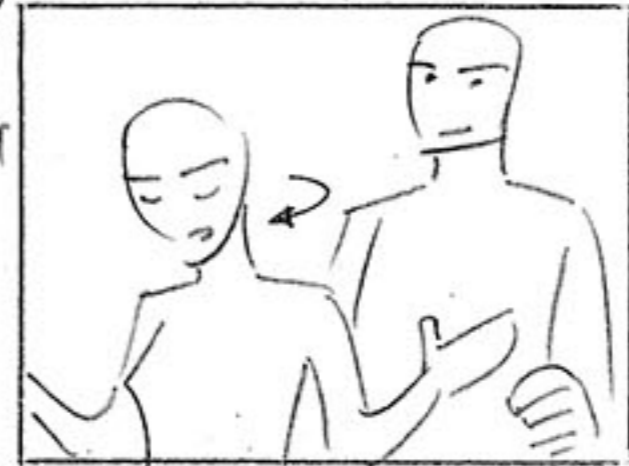

97 B: And he's Professor X
