It tips over onto him KRUMP!

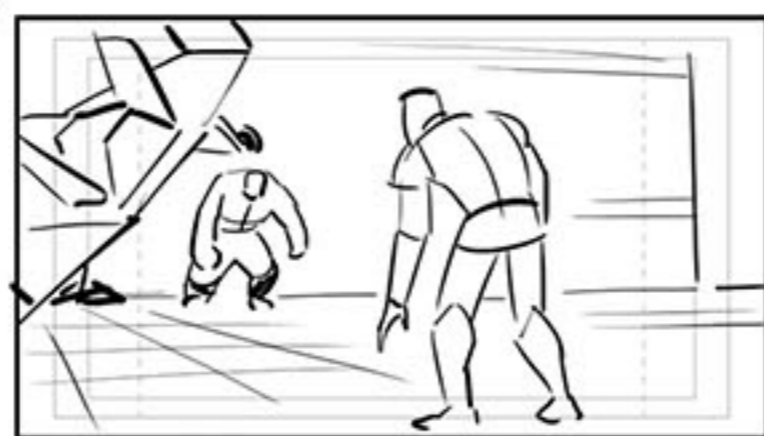

363 IRON MAN  
Close enough.

364 IRON MAN

365 HULK (Grunts). If yer gonna keep yappin', at least tell me where ta go.

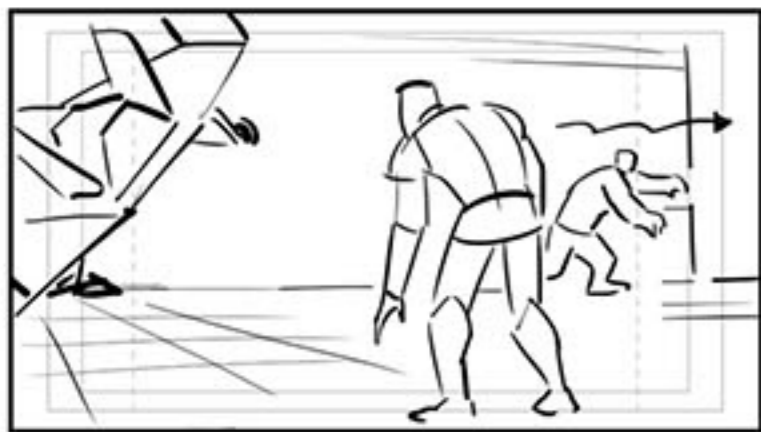

366 IRON MAN Okay, okay. About a 100 paces left.

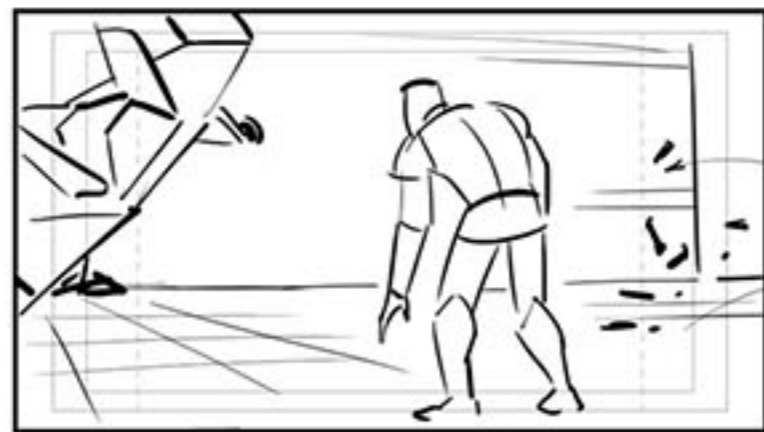

BONK!

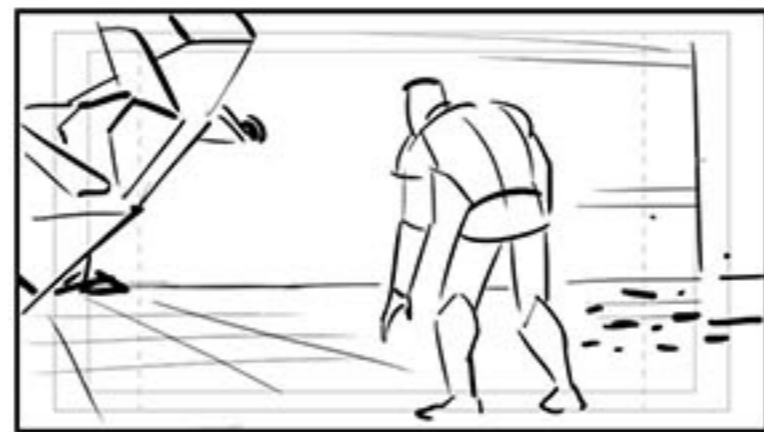

367 IRON MAN Your other left, genius.

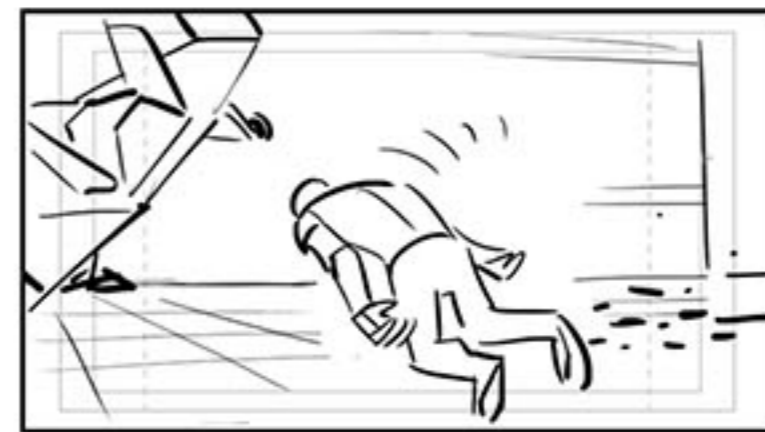

368 IRON MAN And try not to make a racket.

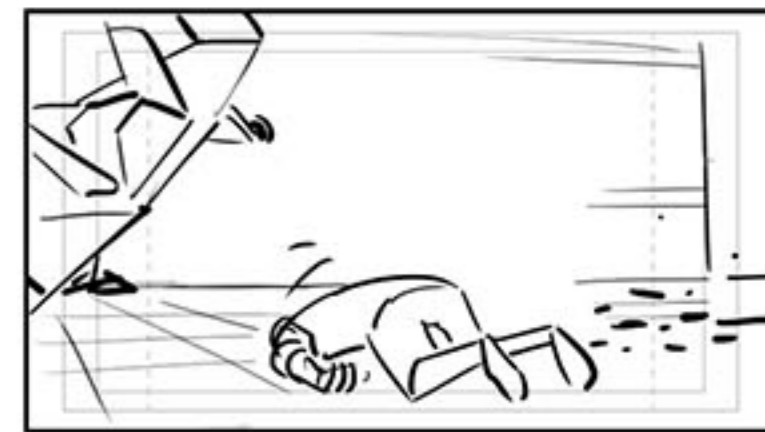

CRASH

370 IRON MAN It only took half the night, but we made it.

Pan up to head IM = DEEP BREATH

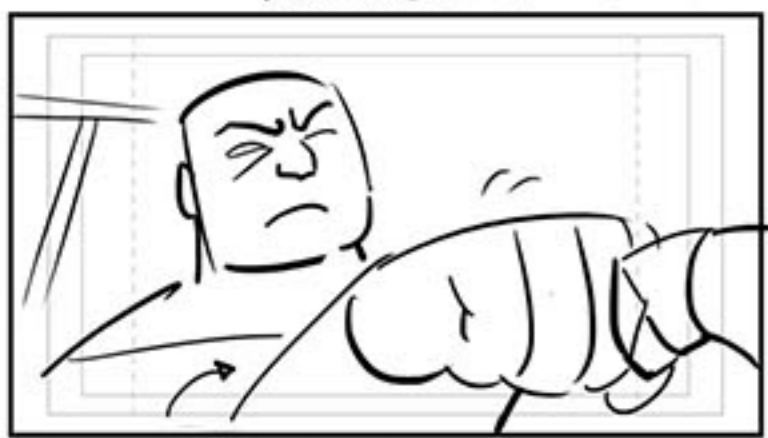

Truck out-body slumps with relief

372 IRON MAN I'm gonna slip into some new work clothes. Just take it easy, Hulk.

THIS LINE CAN BE CUT (REDUNDANT)

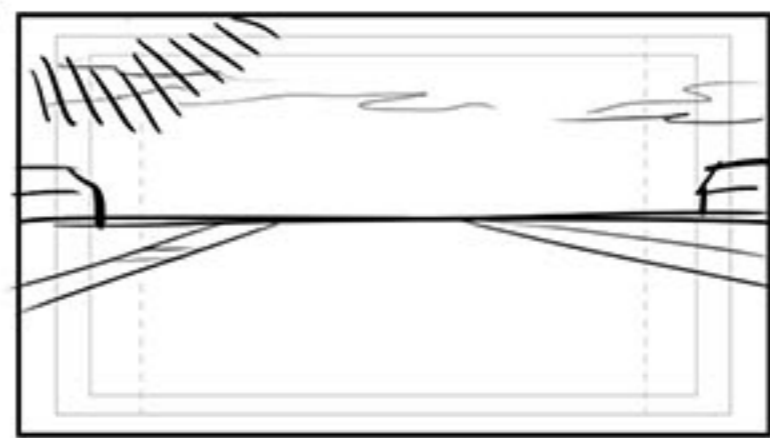

Gentle fist bump

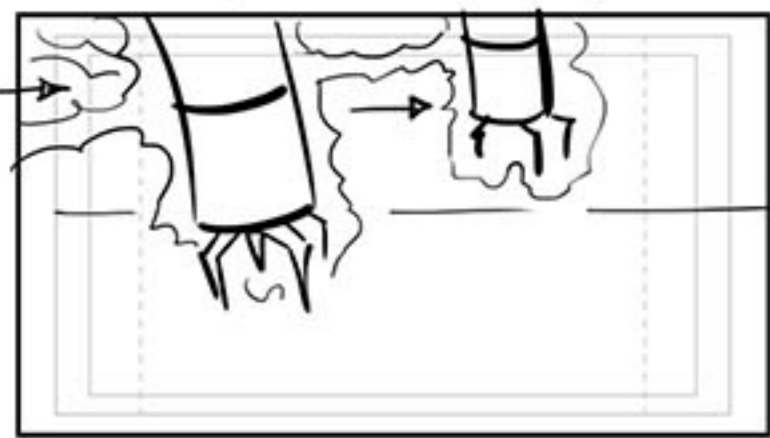

373 HULK Stark. Can you... fix my eyes?

374 TONY (vo) I'll do my best, big guy. Just give me 30 seconds to armor up.

375 IRON MAN  
The Mark 7 armor!

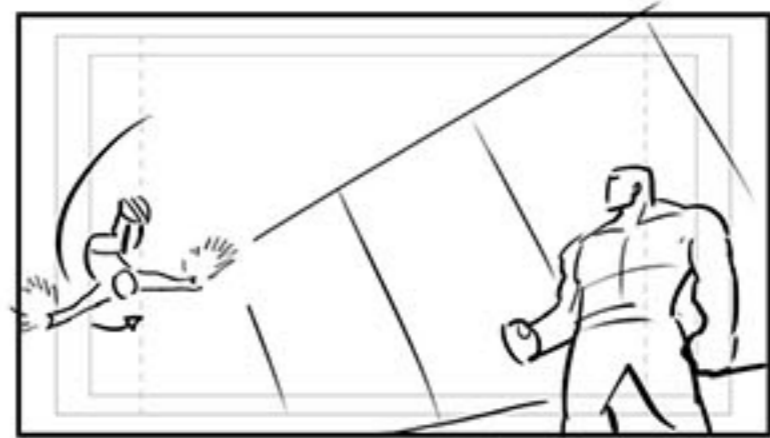

What do you think Hulk?

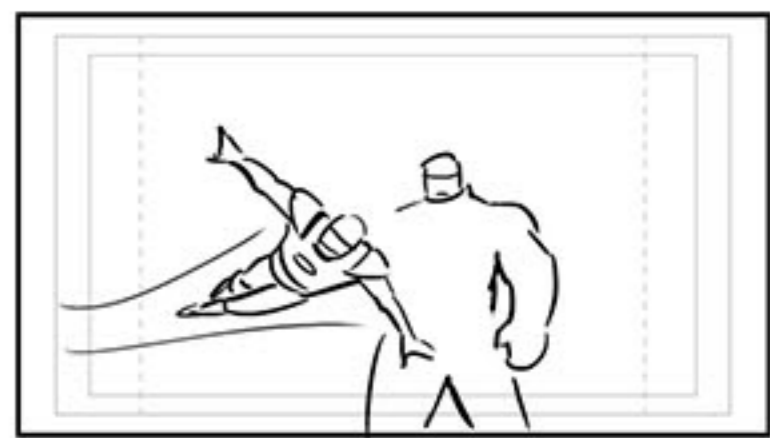

376 HULK  
Did you forget I can't see?

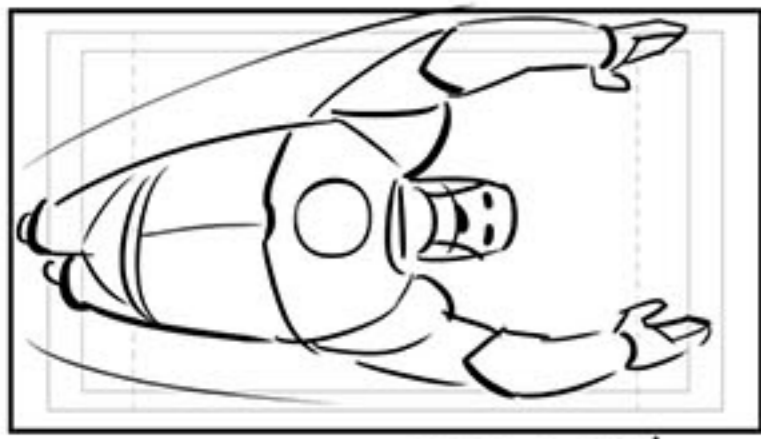

377 IRON MAN  
Well, I'm wearing a

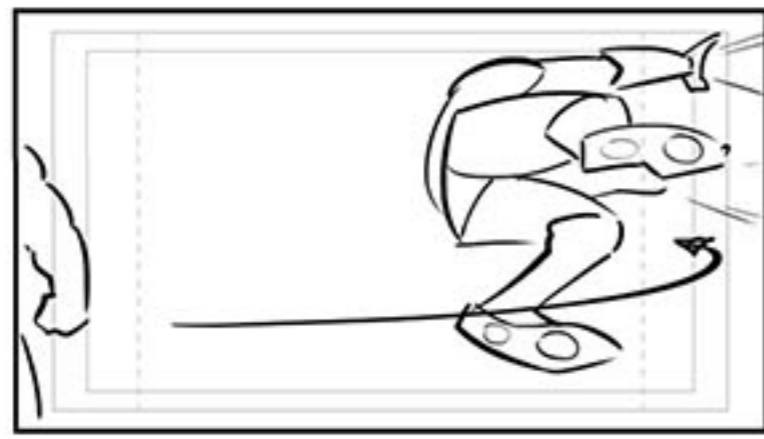

new suit. It's untested and

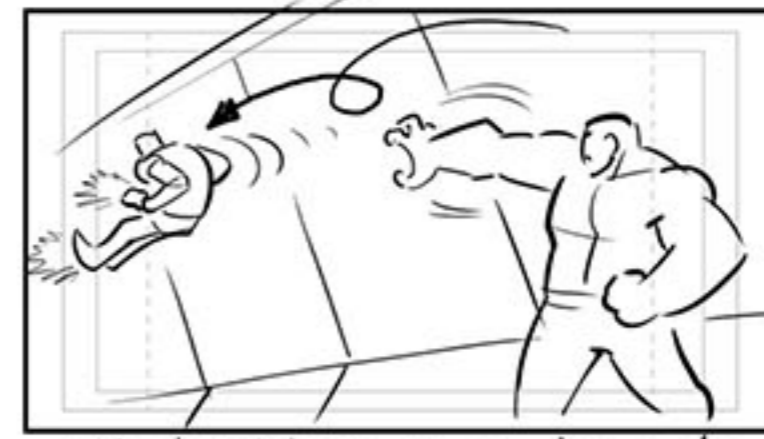

probably a little buggy,

→ Pan with  
but it's got better shields to keep Zzzax out.

It reaches out blindly

← Pan back  
Jarvis, you remodulate the repulsors?

IM tumbles in midair to a stop (feet first)

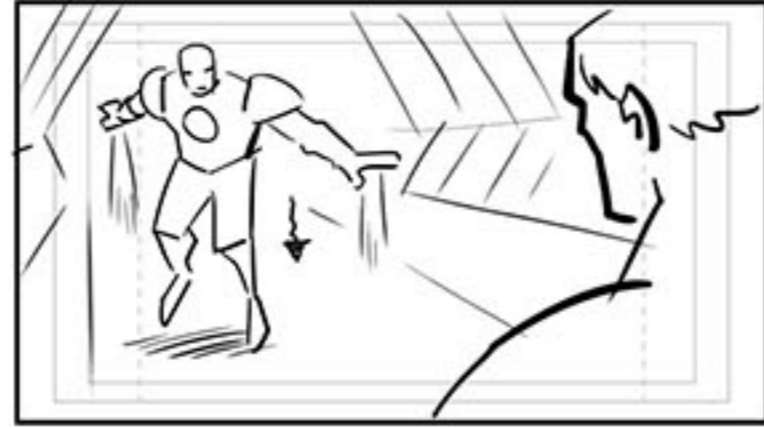

378 JARVIS (V.O.)  
All energy weapons have been tuned

Energy meters equalize to 96.2 Megahertz, which will repel the creature's frequency.

379 IRON MAN  
Alright!

Time to fix you up, Big Green. How's the vision?

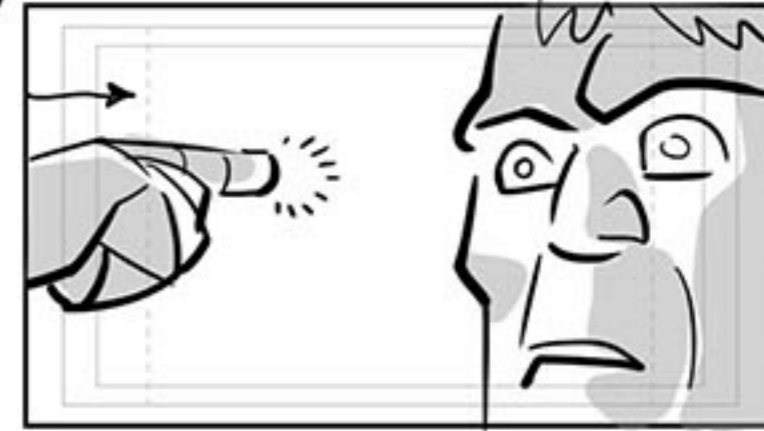

380 HULK  
Everything's still kinda blurry.

POV  
381 IRON MAN  
You're familiar with

laser eye surgery?

382 IRON MAN  
Now hold still... this won't hurt a bit.

(blink)  
Easy as 1, 2--

383 IRON MAN  
HEY!

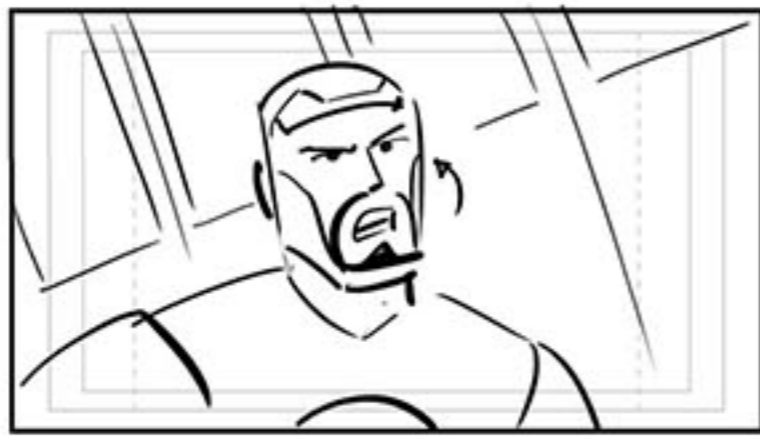

SPARKS  
384 HULK  
Eyes work good enough to see

I don't need a LASER zappin' 'em.

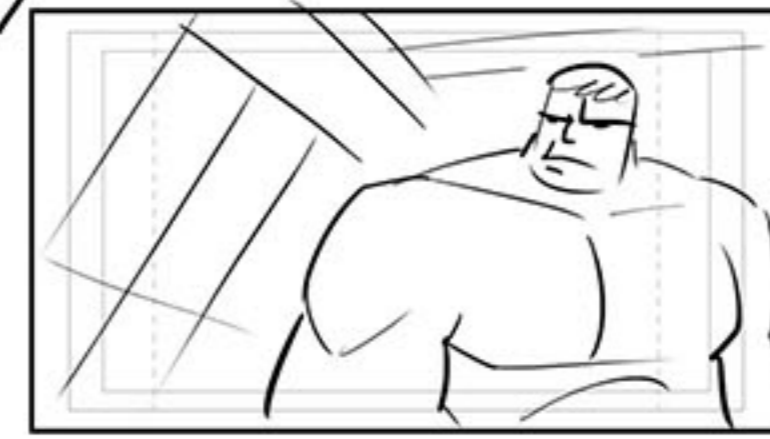

385 IRON MAN  
I'm trying to

help. Look, I know

we got off on the wrong foot today,

with me blasting you

and all... but we've gotta work

together on this, comprende?

This is bigger

than both of us.

386 HULK  
I know that, Stark.

Thanks... for trying to help.  
(eyes look OS)

Slight pause

387 IRON MAN  
No prob.

So here's what I figure  
is happening:

388 IRON MAN  
Zzzax is gonna use my ship

like an antenna... (pause)

(dirty look)

Point to eyes

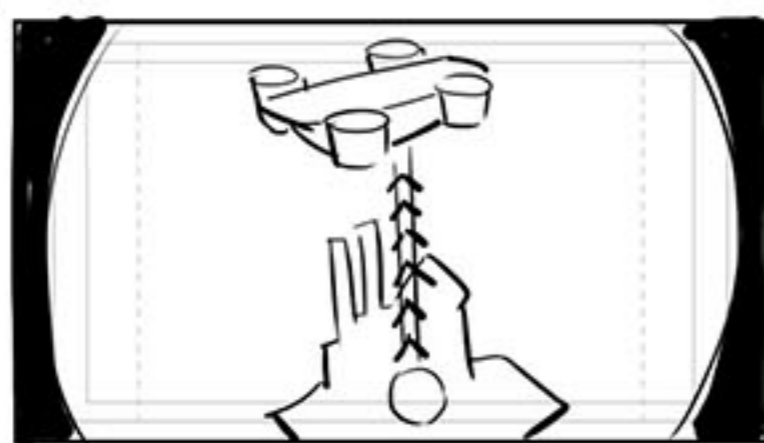

(annoyed)

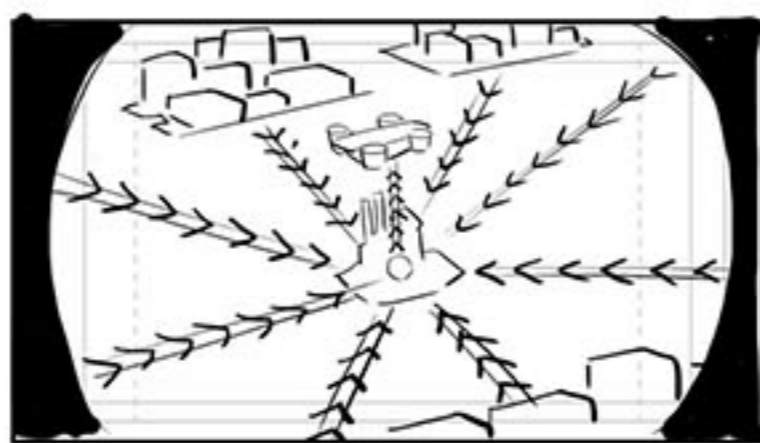

388 IRON MAN (REPEAT)  
Zzzax is gonna use my ship

like an antenna and drain all the

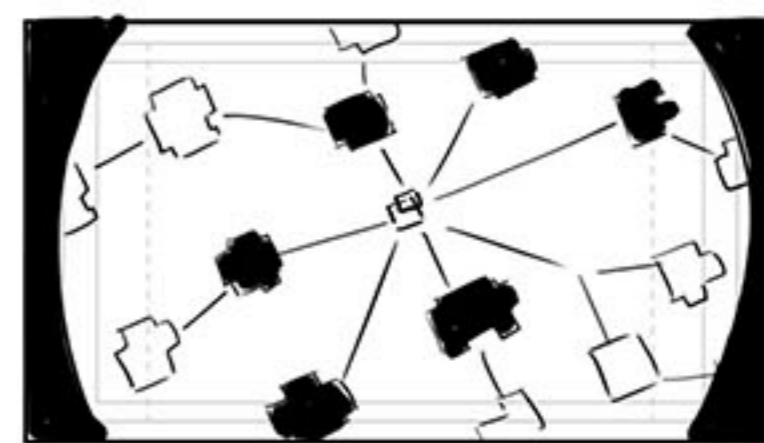

power from earth.  
(Graphics show energy flow)

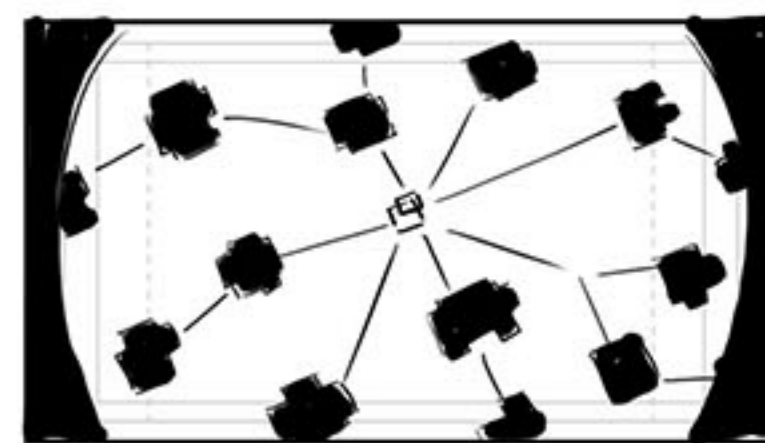

Widen - power flows from towns to plant

We can't just destroy the grid -- we'll leave millions of people in the dark.

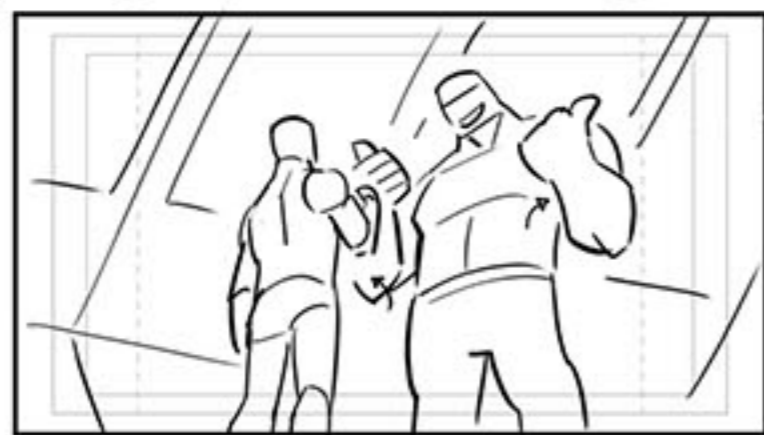

CONTINUOUS action

But we CAN bring Zzzax down and ground him,

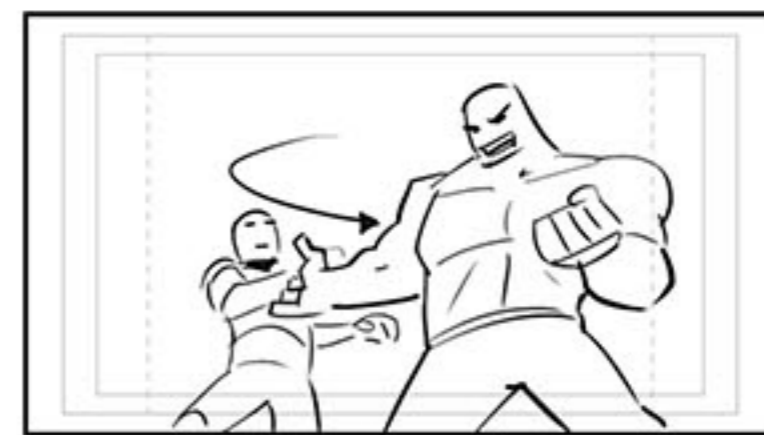

if we take out my ship.

389 HULK  
Crash your iron castle, eh?

I like it.

So what are we waitin' for?

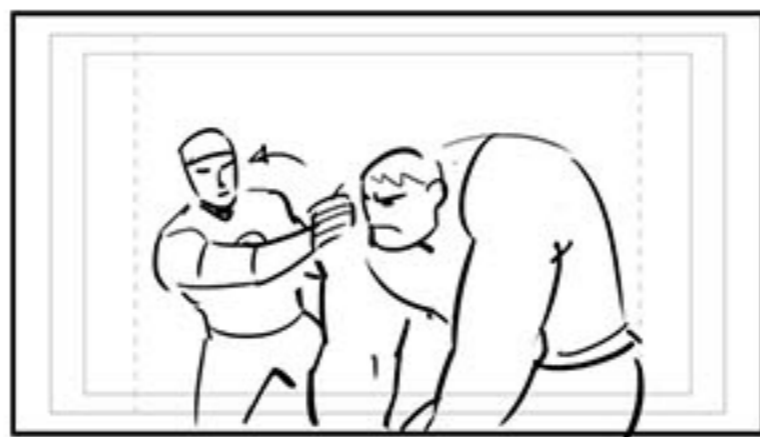

Let's get SMASHIN'!

390 IRON MAN  
Hold up, Hulk!

(freeze)

You want Sparky to zap your eyes again?

We need to insulate you somehow...

TRUCK OUT

391 HULK  
You got something Zzzax can't fry

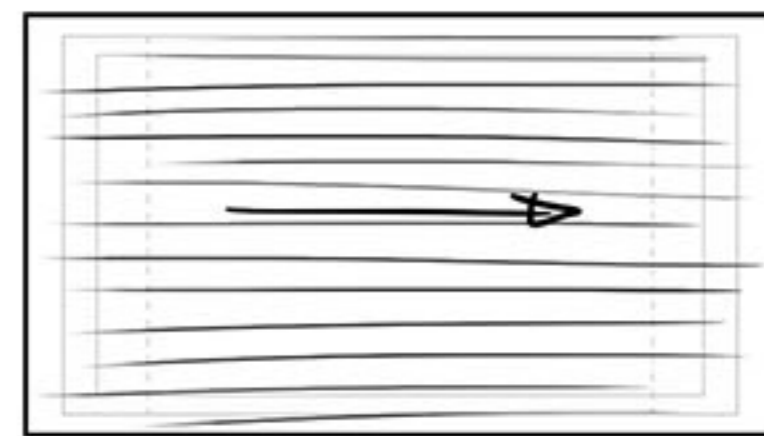

in my size?

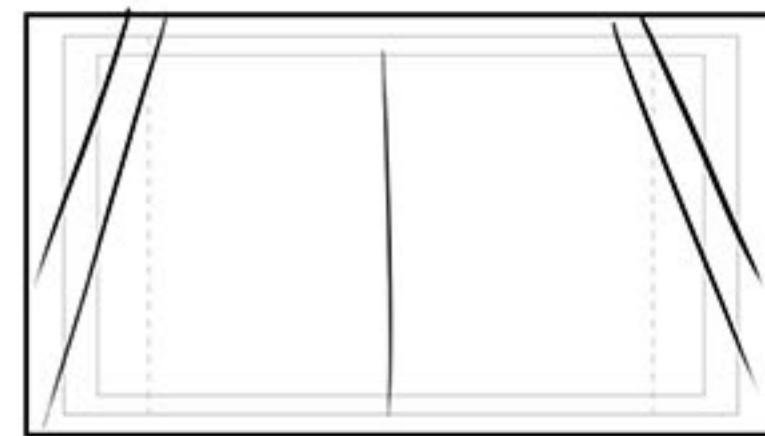

392 IRON MAN  
I think so...

with a little tailoring.

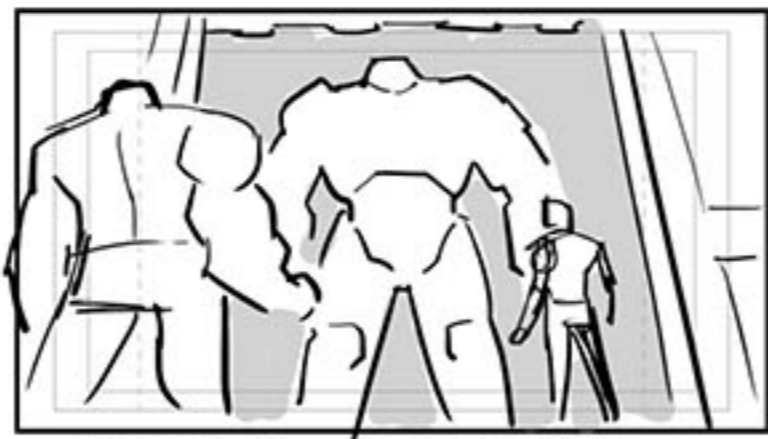

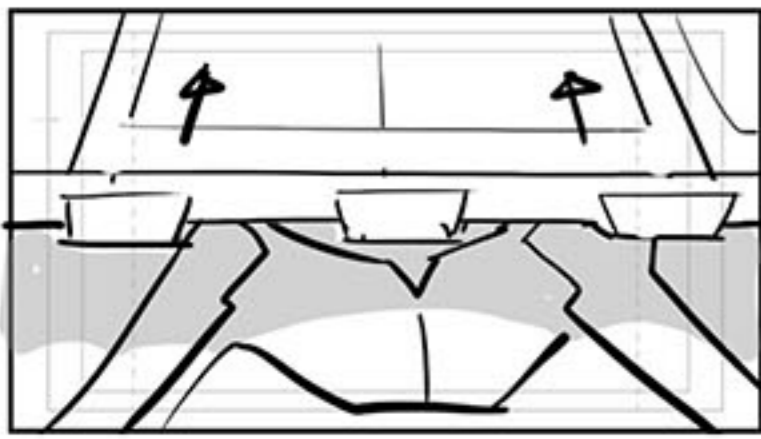

Whip Pan
