who is this Man of Mystery?

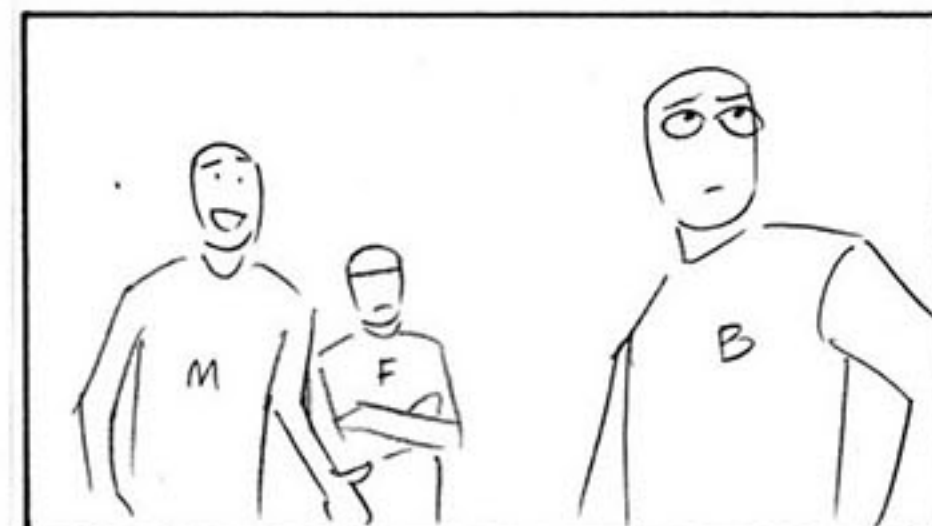

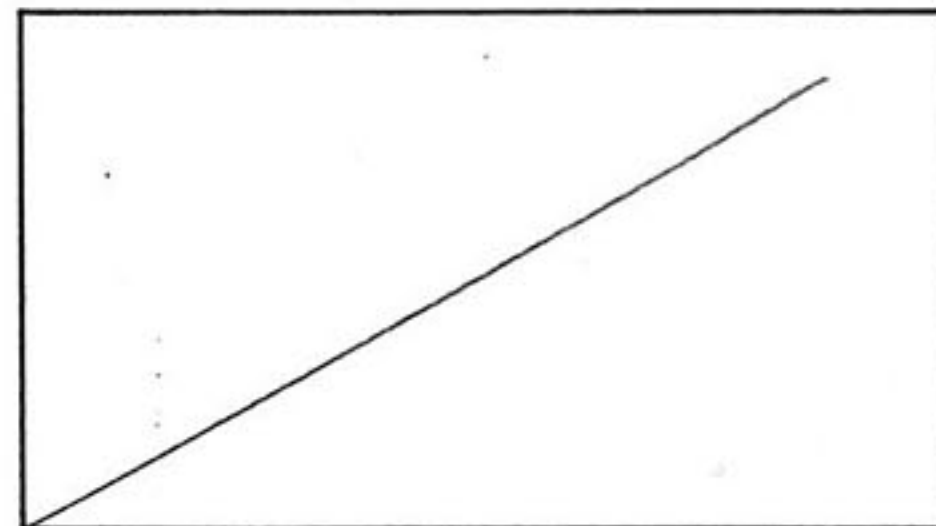

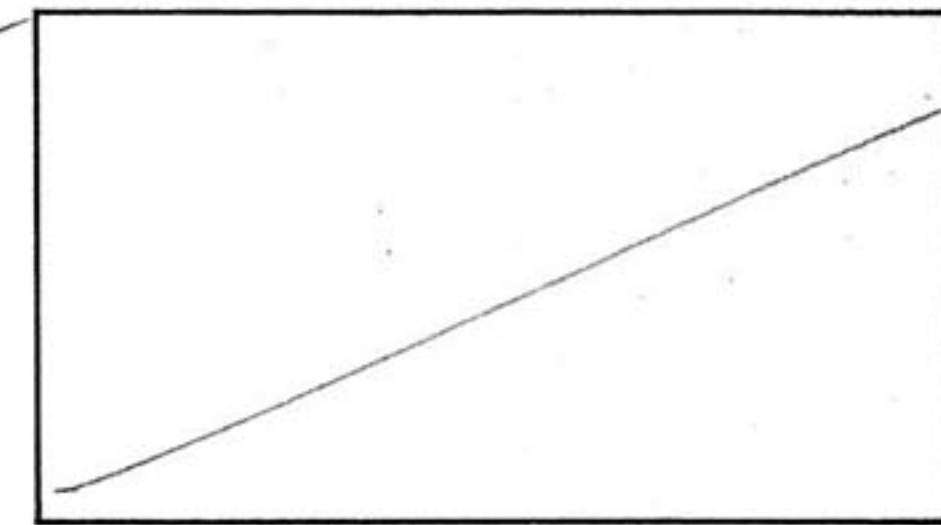

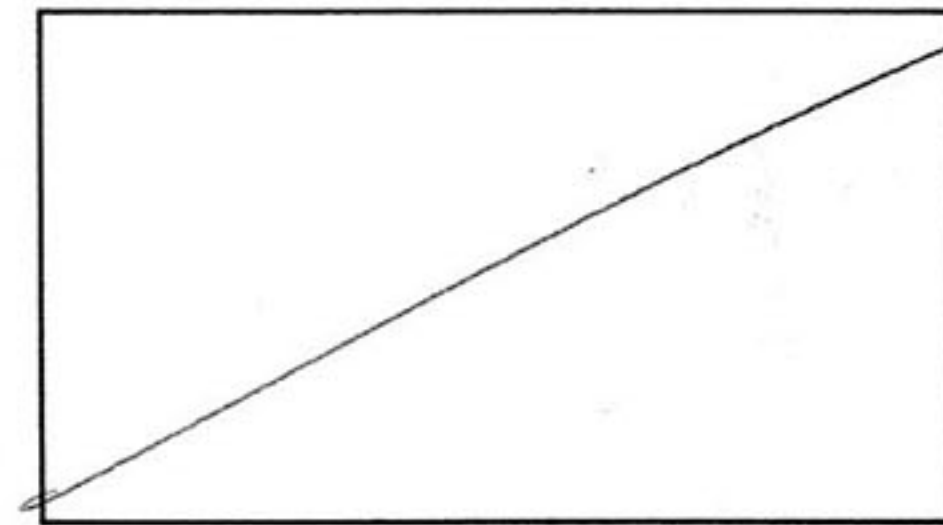

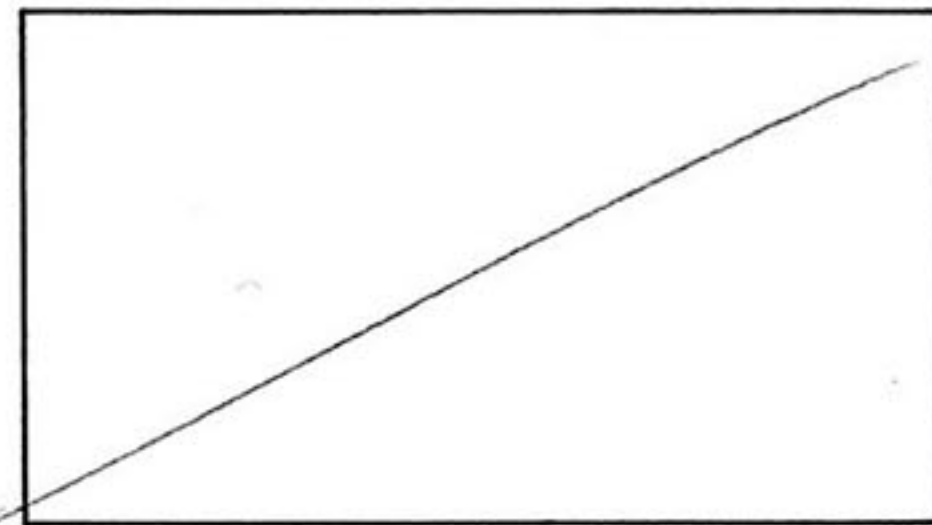

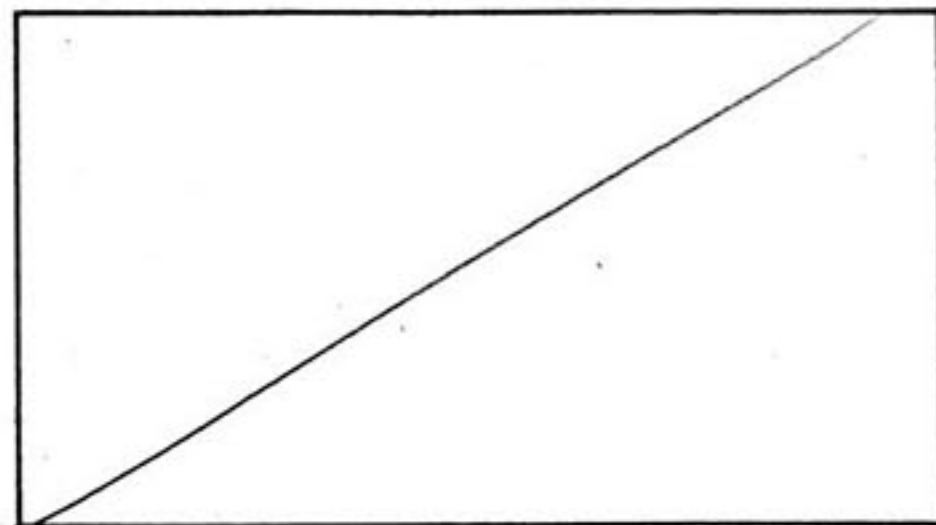

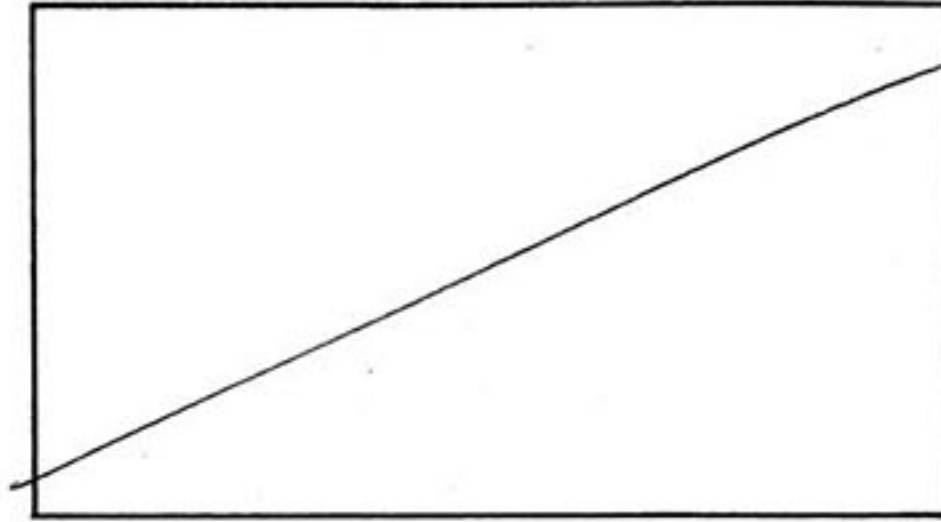

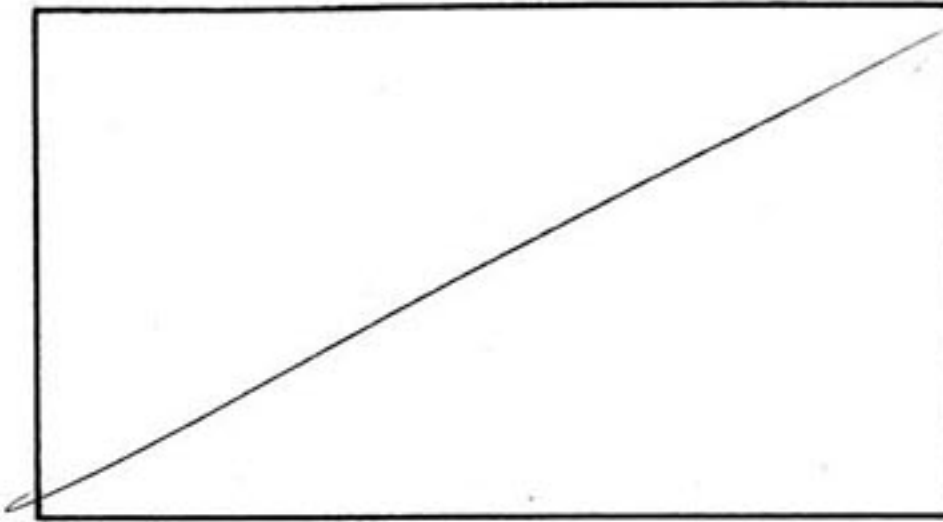

44 MN: Well, now our hero is finally unmasked!

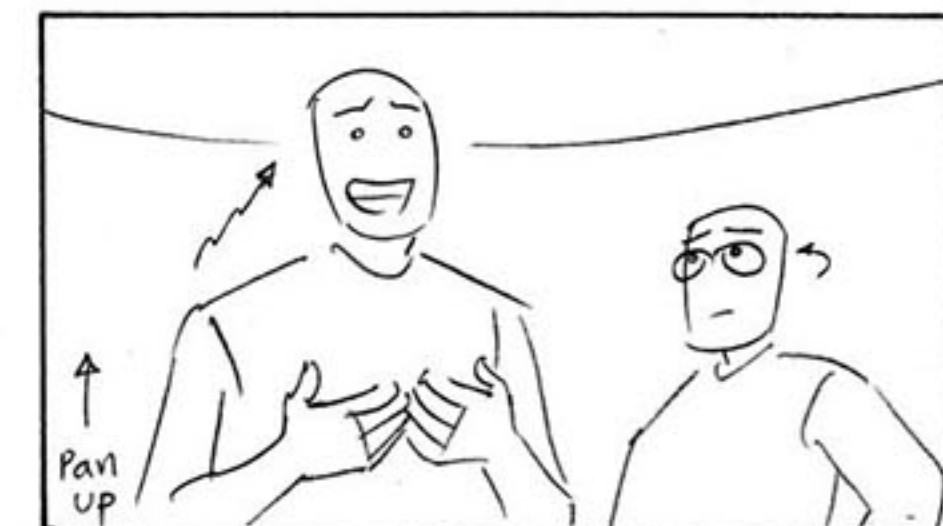

And his name is...

Max Steel!

(45) M: Hey, Berto, I'm on TV!

(46) MN: And today he's at it again!

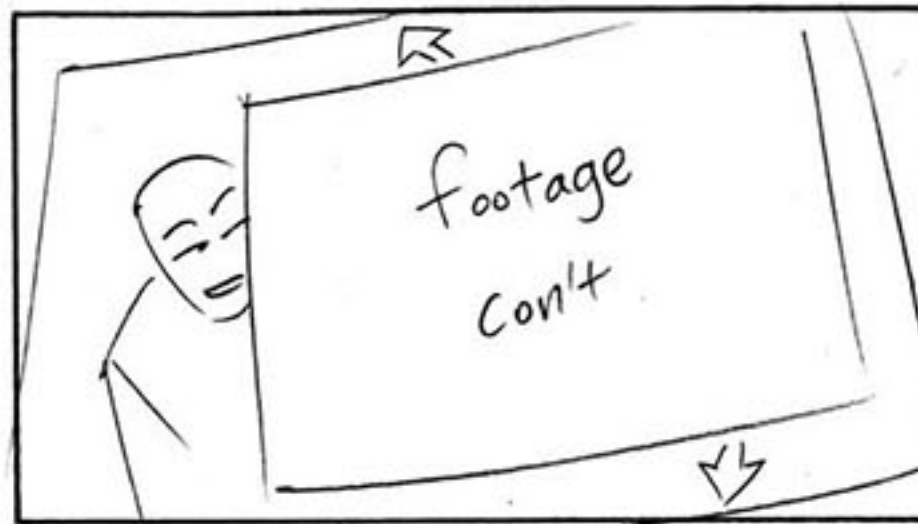

In this exclusive footage-

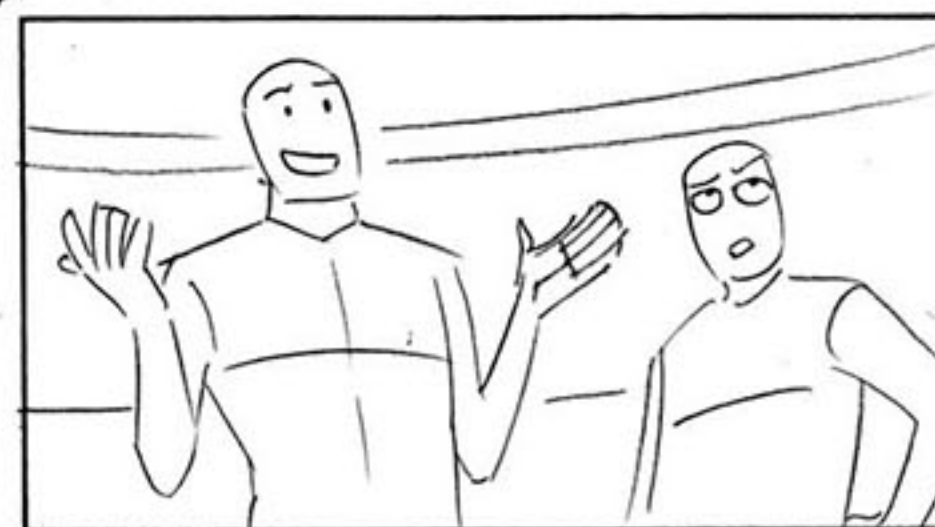

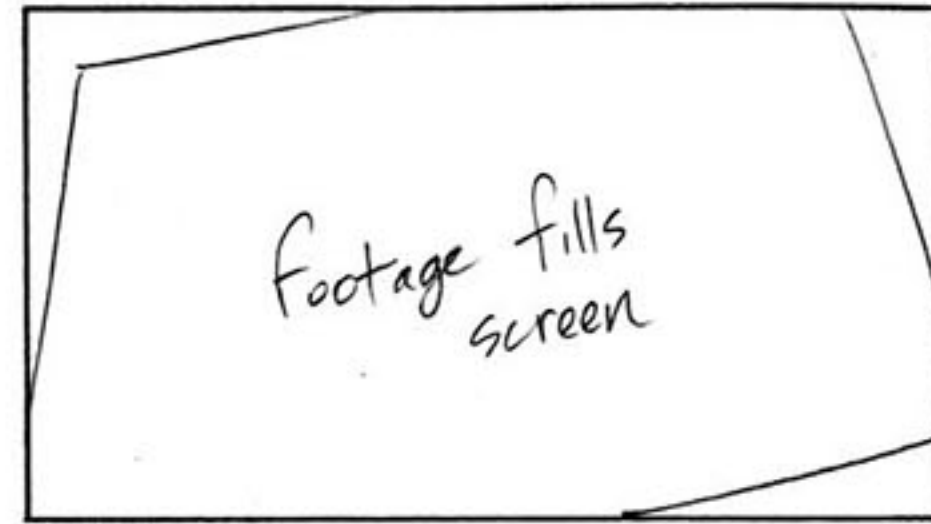

-obtained by ME, Mike Nickelson,

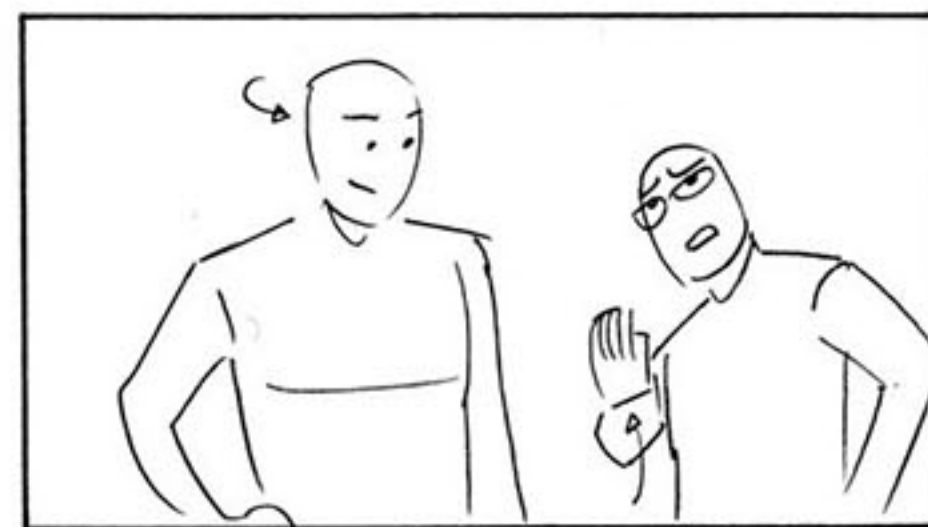

-you're welcome-

Max Steel soars high above the Andes, laughing in the face of danger!

Berto PiP slides in NTek mastermind Berto Martinez in his corner.

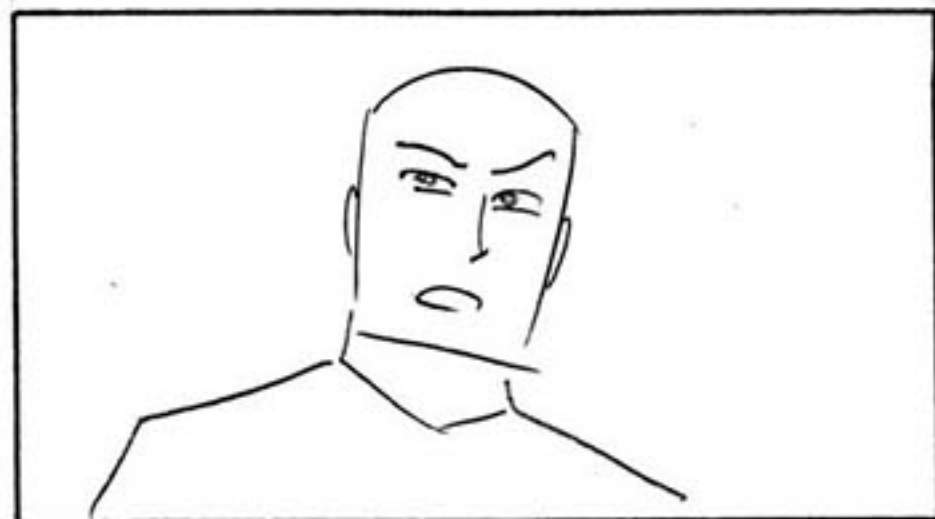

(49) B: But...

he does make some good points.

(50) F: From now on,

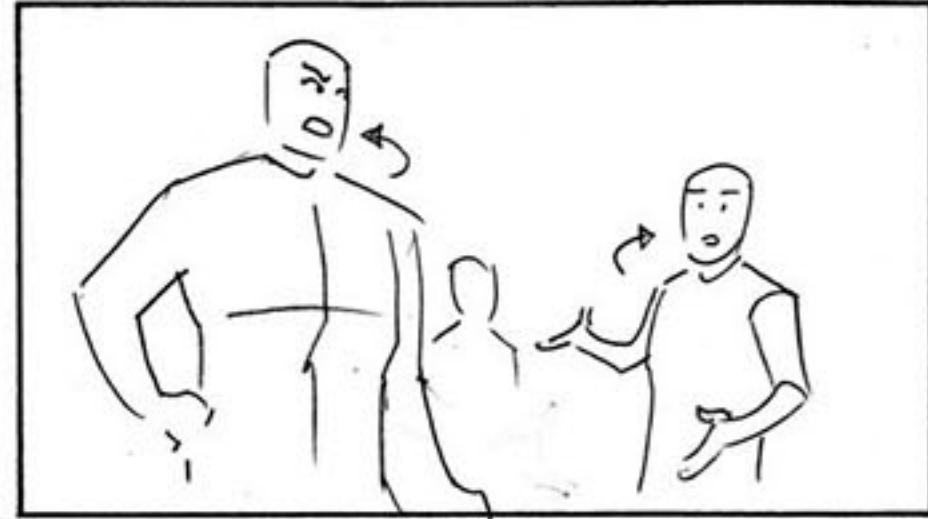

Nobody talks to reporters.

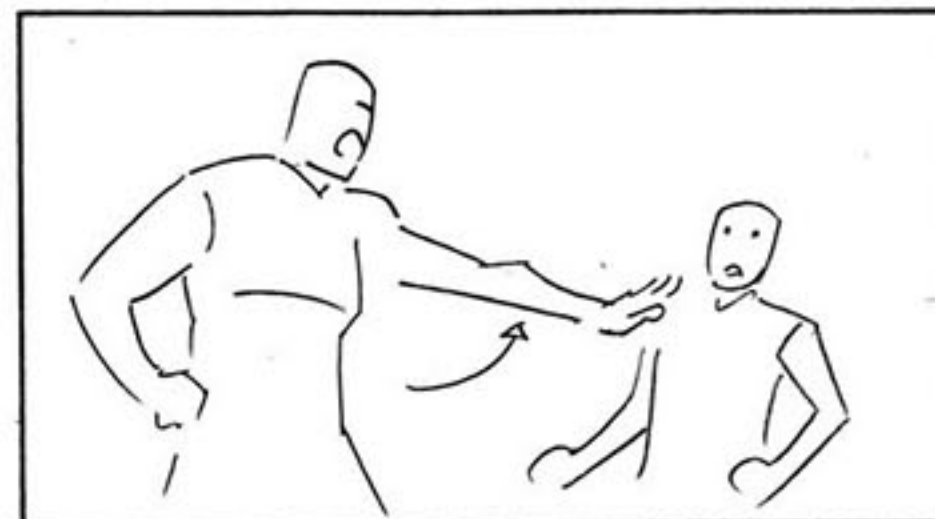

Especially that guy.

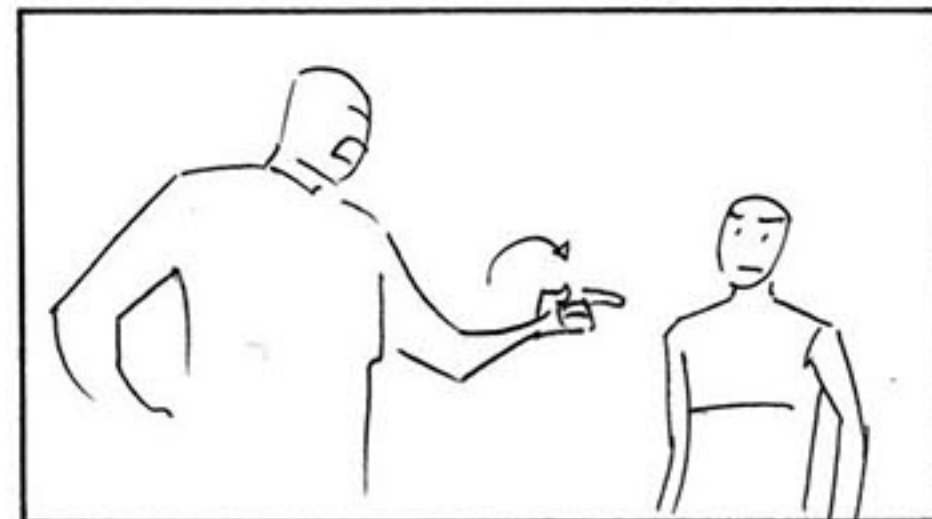

Somethin' fake about him.

Understood? (51) M: Ah, but—

(52) F: NO! Being famous is

—NOT part of your job description, Steel!

People know a hero by his actions, not his words.

Am I clear?

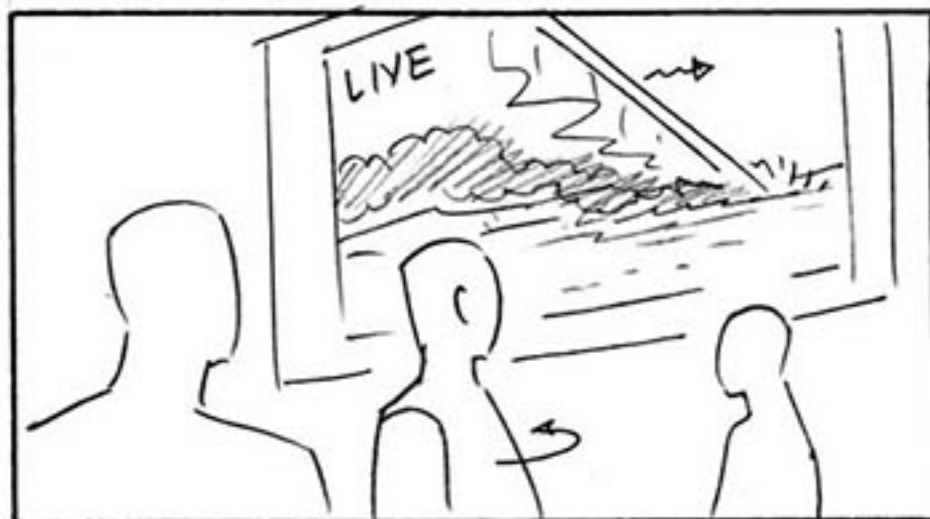

(53) M: Sigh...

Crystal. (54) VO: Breaking news! (fast T.O.)

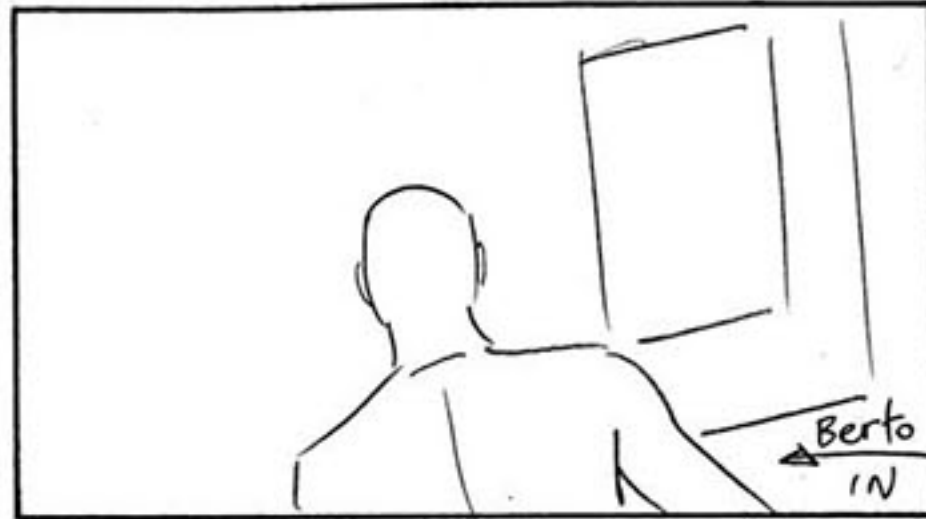

(55) B: What now?

56 VO: You are looking at one of three heat rays currently slicing through the De La Torre desert!

(Go to map, inset)
Unconfirmed reports indicate that the beams are coming from a

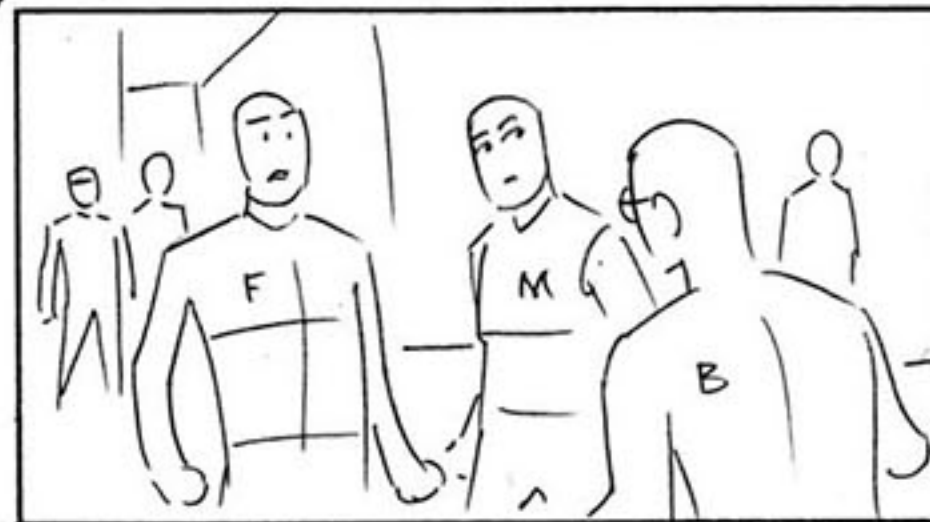

-series of space-based satellites.

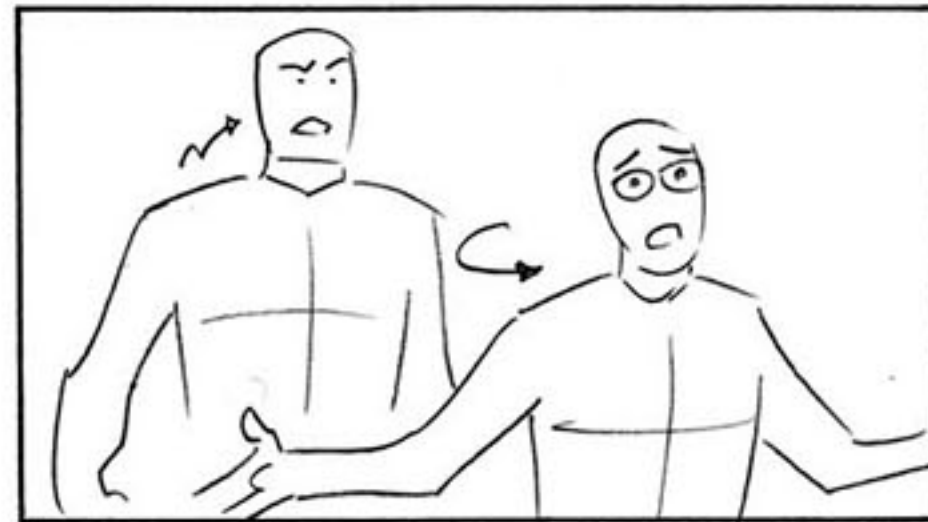

57 B: Satellites?

Those are my solar orbiters!

They generate enough energy

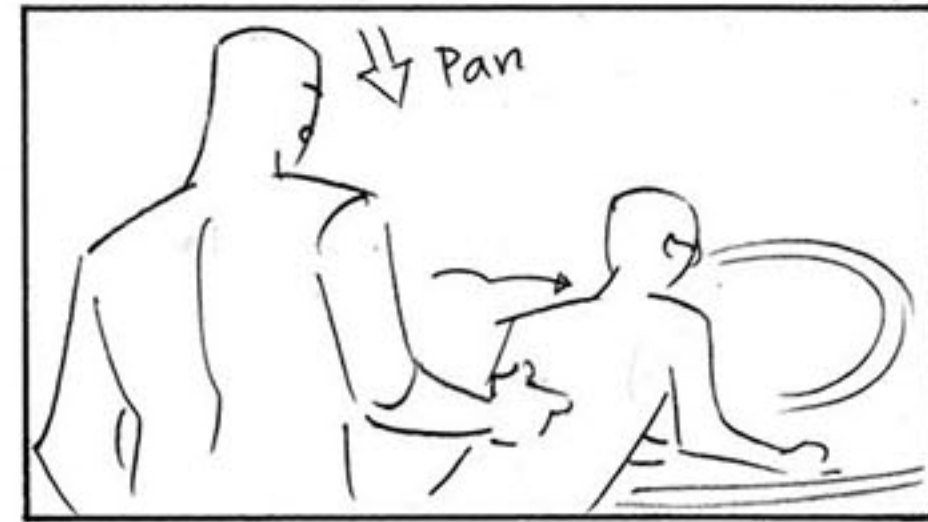

-to power all of N-Tek's operations!

58 F: Looks like they're-

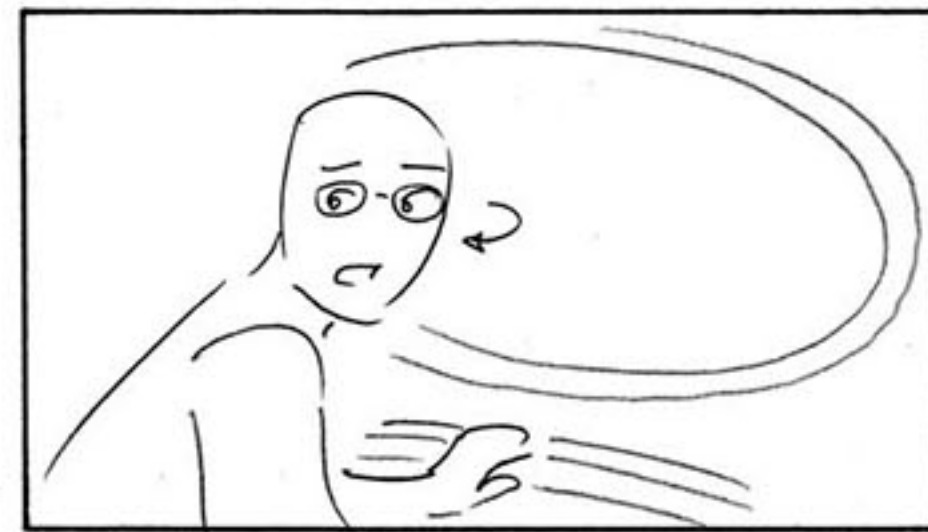

-generating a whole lot more than that!

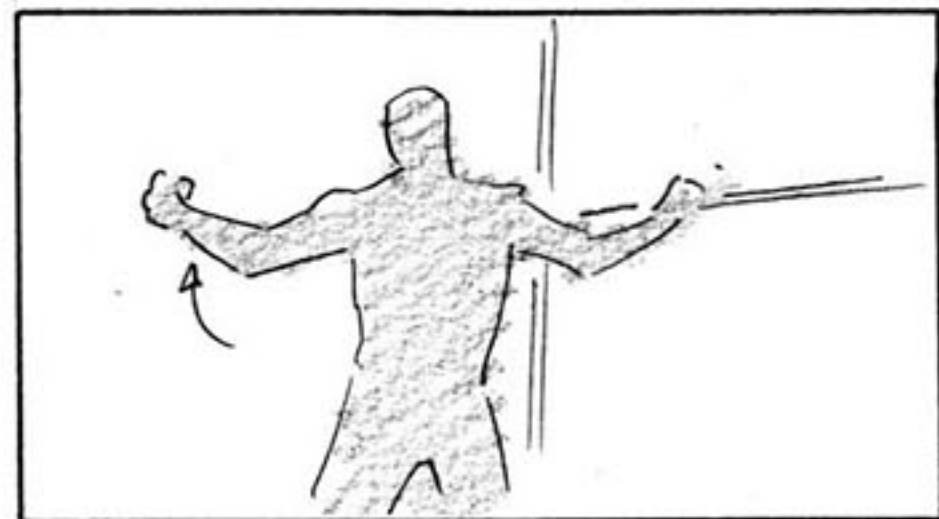

Have we been hacked?

59 B: I don't see any evidence of a breach!

Crane down & tilt up

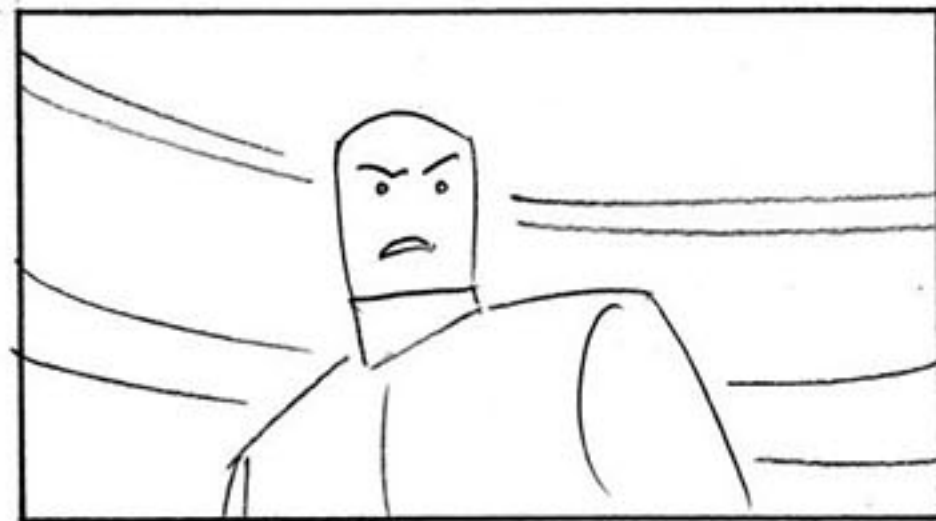

(65) Already trying, sir, but I can't get thru!

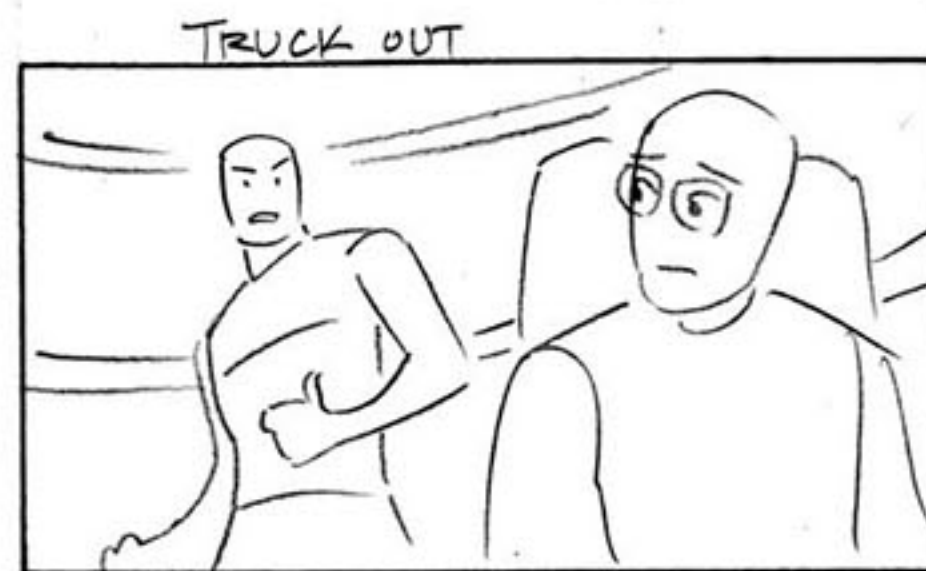

(66) B: Magnetic flares from the heat waves—

whole area!

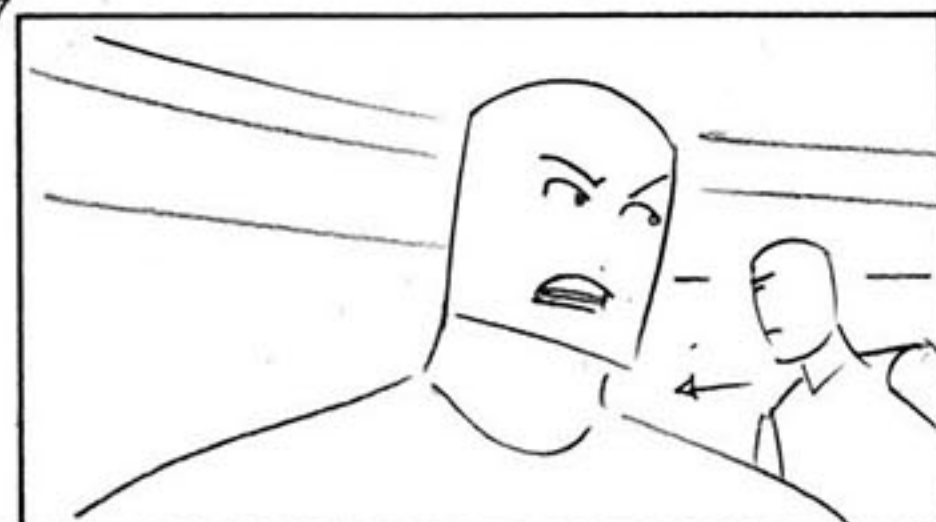

(67) M: Then... we'd better
warn 'em in person.

Berto, I need to gear up!
It looks hot, so get me something
cool!

(68) B: On it, Max!

(69) F: Steel!
